

ALLEGRO FINANCE

Creative Capital

TIFF 2026

We are delighted to have entered into a \$100 million financing framework with Oceanfront Film Finance, with Allegro acting as preferred senior secured production financing partner.

The framework is designed to provide senior financing across Oceanfront's pipeline against eligible collateral including tax incentives, pre-sales and contracted receivables.

For Allegro, this is another step in building long-term financing relationships with producers and studios, providing certainty of senior capital across multiple projects rather than approaching each transaction in isolation.
